Dear David,

Just a note to let you know how much I appreciate your efforts on behalf of us all regarding proposition 6. You have done an excellent job of refuting the lies inherent in the proposition, and I'm sure that gay people all over stand a little taller each time they hear someone as articulate as you taking their side. Whether proposition 6 passes or fails, we will all have grown a bit and gained some ground in the struggle for our rights.

I am proud to have worked along side of you in the past and look forward to doing so again in the future. I am glad you are part of the San Diego gay community and I'm just pleased as punch to call you my friend.

Love in the struggle,

Jess Jussop
